GCC (German Compact Composite) is a wood-based material with a very high proportion of natural fibres. The principle "Cradle to Cradle" is used holistically, that is, high material health is the top priority and therefore the recyclability of the material and its return to the recycling cycle. In this way, our GCC terrace decking contributes to natural and sustainable construction.

DURABLE & ENVIRONMENTALLY FRIENDLY!

GCC HOLZart

- up to 75% wood fibres from sustainably managed forests
- **Cradle to Cradle Certified®** at the Gold level

GCC HARZart

- min. 50% wood fibres from sustainably managed forests
- up to 30% recycled resin (from wind turbine blades, amongst other things)
- **Cradle to Cradle Certified®** at the Gold level
